

### Over the Teacups

you can spend many an hour in pleasant conversation. When your friends come you must serve them with the best Tea the market affords.

There are Teas of high and low degree—some of the lowest grades sell for the highest prices—there's much deception in Teas.

#### OUR TEAS

are selected especially for their drinking merits—we offer them at prices less than their real value. If you really want a grade of Tea that will not only please your taste but be the same today as yesterday, and tomorrow and every day as the day before—first, last, and all the time the same reliable Tea, we have it right here in the store, and await your order.

## WEEKLY CROP BULLETIN.

For the Week Ending September 23, 1905.

Local Office, U. S. Weather Bureau,  
Honolulu, T. H., September 25, 1905.

### GENERAL SUMMARY.

The past week has been marked by somewhat lower night temperatures and unsettled, showery weather in nearly all sections of the Group. The rainfall has been excessive in the Kona district of Hawaii and in all of the windward districts of Maui and Hawaii. Throughout the Hilo district of Hawaii, the precipitation during the week averaged over eleven inches.

While conditions have been generally favorable for satisfactory cane growth in most localities, there have been entirely too much moisture and too little sunshine in the Hilo district of Hawaii and the Kipahulu district of Maui, where, also, field operations have been very seriously interfered with. The drought in the cane lands of the Kau district of Hawaii has been effectively broken by the heavy rains which fell there during the fore part of the week. Cane grinding at Makaweli, Kauai, was finished on the 19th instant. Pineapple growers are all busily engaged in the plowing of land and planting; young pineapple plants are doing nicely, except that in central Maui their growth has been hindered by the cloudy and wet weather. The continuance of heavy rains in the Kona district of Hawaii is interfering greatly with the ripening of coffee and is retarding the picking; picking will soon be commenced in windward Oahu. Second crop rice continues to grow well in all sections. Pastures, on account of the abundant rainfall, are, in the main, in good condition; but both pastures and grazing stock in portions of the Kona and Kohala districts of Hawaii and the windward districts of Maui would now be benefited by a few days of fair weather.

### REMARKS BY CORRESPONDENTS.

#### ISLAND OF HAWAII.

Kaunakakai—Heavy rains during first part of week, with low maximum temperature and no sunshine; weather at present about normal, and crops in good condition; stripping and weeding cane.—J. E. Gamalielson.

Papaikou—Weather very wet and disagreeable for all plantation operations; crops doing well; stripping and cultivating cane a little.—John T. Moir.

Peepee—Too much rain altogether; weeding, hoeing and fertilizing cane.—Jas. Webster.

Honolulu—Weather has been very wet during greater part of week, making work of hoeing and cultivating impossible; thrashing and fertilizing cane.—W. K. Andrews.

Hakalau—Weather during week very wet, making cultivation extremely difficult; stripping, hoeing and fertilizing cane.—J. M. Ross.

Laupahoehoe—A very rainy week; gulches running and roads bad; very little work done in the fields.—E. W. Barnard.

Ookala—Very warm, with heavy rains; stripping cane.—W. G. Walker.

Panabau—Frequent heavy rains; calm weather, and cane crops in excellent condition.—H. Glass.

Honokaa—Heavy rains on 15th and 16th; weather warm and showery since.—C. H. Bragg.

Niuli—An excess of rain for the first two days of week; since then the weather has been showery and favorable for cane crops.—F. C. Paetow.

Kohala—Continued fine rains and favorable conditions for growing cane crops.—W. O. Taylor.

Kohala Mission—A week of abundant rains; conditions exceptionally favorable for crops and pastures.—Dr. B. D. Bond.

Puakea Ranch—Plentiful rains during early part of week; fine, warm weather would now prove very beneficial to stock and pastures.—A. Mason.

Puuhoe—Wet weather, with heavy winds; pastures in good condition; stock picking up.—S. P. Woods.

Kamuela—Strong trade winds during week; pastures in good condition.—E. E. Conant.

Kamuela—Moderate temperatures, and daily showers.—Mrs. E. W. Hay.

Puuwaawaa—Very dry, with high winds.—Robt. Hind.

Honokahau—Heavy and continuous rains similar to those of preceding week.—F. R. Greenwell.

Kealahou—Heavy rains, and very little sunshine.—Rev. S. H. Davis.

Kealahou—Rainfall for week, 6.36 inches; fine weather and more sunshine is badly needed not only for the ripening of the coffee but also for the picking.—Robert Wallace.

Naalehu—2.00 inches of rain on 16th;

quite showery on the high levels; weather is cooler than that of last week.—G. G. Kinney.

Pahala—Good soaking showers fell early in the week, benefiting cane and pastures considerably.—H. D. Harrison.

Kapoho—Heavy rains during fore part of week, followed by generally fair weather and light showers; a continuation of fair weather is very desirable.—H. J. Lyman.

Olaa—Heavy rains during early part of week; hoeing ratoon cane, and striping in mauka section; planting continues.—E. P. McCann.

#### ISLAND OF MAUI.

Kipahulu—Cane crops progressing favorable, but weather a little too wet for planting and weeding.—Andrew Gross.

Hana—Warm and cloudy weather, with a good rainfall during most of week; cultivating and weeding cane crops.—N. Omsted.

Nahiku—Plenty of water in all of the gulches, and ground very wet from the continued heavy rains; a few days of dry weather would be very beneficial.—C. O. Jacobs.

Huala—Heavy rains during fore part of week, and ground saturated with moisture; all mountain streams and plantation irrigation ditches running full; stock begins to show the effect of the heavy rains.—W. F. Pogue.

Peahi—Heavy rains, and water ditches all running full; crops and cattle looking well.—Geo. Groves.

Haiku—Most of week rainy and cloudy, with strong trade wind; rather unfavorable for plant growth and field work; sugar plantations and pastures, however, have received great benefit from the rains.—D. D. Baldwin.

Paia—Warm days, but somewhat cooler nights during latter part of week; cloudy and showery weather.—J. J. Jones.

Makawao—Weather cooler and showery, with moderate trade winds all week; late crops and pastures in good condition, and stock doing well; clearing and plowing land for next season's farm crops; last week's rains in the Kula section have started vegetation finely.—E. H. Bailey.

Kahului—Cloudy weather, with trade winds and moderate temperatures.—R. W. Filler.

Puunene—Good showers at beginning of week, and one pump shut down; heavy rains at ditch heads; good planting and growing weather.—J. N. S. Williams.

Wailuku—Cloudy weather, with cool, showery nights and light trades; water plentiful; grass, rice and cane in excellent condition; vegetables and fruit scarce.—Bro. Frank.

Kihui—Fine weather, with moderate trade winds all week and a light rain on 18th; hilling up 1907 ratoons.

## FREE TO MEN!

A BOOK FULL OF FACTS ABOUT

### DR. McLAUGHLIN'S ELECTRIC BELT FOR WEAK MEN

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE HE WANTS TO; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells or any ailment of that kind that unmans you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed, free, if you send this ad.

**DR. M. G. McLAUGHLIN,** 906 MARKET ST., Above Ellis, SAN FRANCISCO, CAL.

planting cane.—Wm. H. Sparkes.

Kaanapali—Strong trade winds; light showers on 16th and 17th; all growing cane and pastures looking well.—Wm. Robb.

#### ISLAND OF OAHU.

Ahuimanu—Moderate temperatures, and showery weather during the entire week.—E. Knust.

Maunawili—Weather has been cloudy and warm, with an abundance of moisture; coffee will soon be ready for picking.—John Herd.

Waimanalo—Moderate temperatures, with frequent showers.—A. Irvine.

Manoa—Rainfall during week about six inches; moderate temperatures, with strong trade winds every afternoon; taro in good condition, and all crops growing well.—H. J. Rhodes.

Ewa—Strong northeast winds on several days of the week, with a trace of rain on the 21st; planting cane.—W. Lohrengel.

Sisal—Several showers during week, and condition of soil improved very much; sisal looking well.—Wm. Weinrich, Jr.

Waianae—The weather has been somewhat cloudier this week, and some rain has fallen on the higher lands.—F. Meyer.

Waiawa—Light showers during the week; plowing land and planting pines.—W. F. Waters.

Wahiawa—Summer crop of pineapples in district entirely harvested; winter crop showing up nicely, and from present indications will come in slightly earlier than usual; young pineapple

plants doing well; planting, the principal work at present; pastures in fairly good condition.—B. O. Clark.

Kahuku—Weather warm and dry, except for a few light showers at night; have resumed artificial irrigation; pastures and grazing stock in good condition, and all crops looking well; harvesting of cane continues; replanting, planting and fertilizing steadily.—R. T. Christophersen.

#### ISLAND OF KAUAI.

Makaweli—Finished grinding cane on 19th; plowing land and planting cane; light showers on 18th and 21st; nights considerably cooler this week.—Hawaiian Sugar Co.

Eleele—Warm, with light showers at night; good growing weather; have nearly finished planting for cane crop of 1907.—McBryde Sugar Co.

Koloa—Fine growing weather, with good showers on 16th and 17th; cane crops and pastures are in good condition; weeding and fertilizing cane.—P. McLane.

Lihue—Moderate temperatures, with occasional light showers; strong wind during days, and calm at nights.—F. Weber.

Kealia—Good growing weather; plenty of water.—W. Jarvis.

Kilauea—Weather warm, with continued light showers during week.—L. B. Boreiko.

Hanalei—Pastures in fine condition; rice in the Hanalei and Waili valleys doing well.—E. G. K. Deverill.

A. McC. ASHLEY,  
Section Director.

IT IS THE BEST

## California Rose Creamery Butter

is by all odds the best on the local market. When it is used the meal receives the finishing touches of perfection. In flavor, purity and reliability, CALIFORNIA ROSE CREAMERY BUTTER can not be excelled. Better butter can not be found anywhere.
